

VAR SORTING

GVA 66 l WITH FOOT PEDAL

High-volume waste collector (capacity ca. 66 l) with hygienic foot pedal and solid bottom for the use of 70 l garbage bags.

Corpus made of electrolytically galvanized steel sheets. Corrosion control through a high-quality, polyester-based, structured antique-silver powder coating.

Alternatively available with corpus made of polished stainless steel. Equipped with floor sparing edge protection, plastic lids and clamping rings for the fixation of the bags.
